

Newton County Water and Sewerage Authority Utility Infrastructure Location Letter

TO:

Pursuant to your request, the Newton County Water and Sewerage Authority (the "Authority") has preliminarily investigated nearest available location(s) ("tie-ins") for water and/or sewerage service. Our investigation reveals the following:

- Public Water Service Infrastructure is available within 1,500 feet of the subject property and is apparently accessible.**

 - Public Sanitary Sewer Service Infrastructure is available within 1,500 feet of the subject property and is apparently accessible.**
-

Public Water Service Infrastructure does not appear to be available for the following reason(s):

The proposed property does not appear to lie within the Authority's approved Water Service Delivery Area.

Other: _____
_____.

Public Sanitary Sewer Infrastructure does not appear to be available for the following reasons:

The proposed property does not appear to lie within the Authority's approved Sewer Service Delivery Area.

Other: _____
_____.

Use of or access to all available water and sewer infrastructure owned and operated by the Authority is subject to such requirements as flow and pressure tests, hydraulic conveyance capacity studies, field inspections and reports and design reviews as determined to be necessary by Authority engineering and management staff.

Nothing contained herein shall be considered a commitment to provide the services described herein, unless at the time of initial delivery of services, (1) adequate capacity then exists within the system to assure uninterrupted service; and (2) lines and other system elements to be furnished by the owner shall have been properly installed and fully inspected by the Authority, all in the sole opinion of the Authority.
