Please email completed form to [eng@ncwsa.us](mailto:eng@ncwsa.us). If you have questions, please call us at (770) 385-3923.

Approval from Newton County Board of Commissioners for rezone of the property does not guarantee that water and / or sewer system treatment or conveyance capacity can support the future use of the property. NCWSA must review plans for **any** future development and determine if sufficient treatment or conveyance capacity exists to support projected water or sewer use.

\*If letter is needed for the rezone of a property, complete and furnish a copy of Section III of the *Petition for Rezoning and Amendment to Future Land Use Map* found within Newton County's *Application Package for Rezoning, Amendment to Future Land Use Map and Overlay Tier Change* that must be submitted to Newton County for a rezone.
